McDonald, OH – The Village of McDonald is excited to announce plans to renovate and improve Woodland Park, our community's central recreational space. As part of this effort, the Village will be focusing on upgrading the park's basketball, tennis, and pickleball courts with new surfacing, painting, and equipment through an application to the Ohio Department of Natural Resources NatureWorks Program.

In addition to physical improvements, we are exploring the creation of structured sports programming during the summer months. Potential offerings include youth skills camps, competitive tournaments, and health and wellness education. These programs would build on our existing partnerships to offer engaging and meaningful opportunities for residents of all ages.

McDonald recognizes that for many families, access to summer programs and camps can be cost prohibitive, through investing in Woodland Park, McDonald intends to utilize the space to include and engage residents of all ages. We believe these improvements will help enhance quality of life for our residents and make McDonald an even better place to live, play, and raise a family.

We invite all residents to share their questions, ideas, or concerns as we move forward with this initiative. Community engagement is paramount to McDonald's ability to strategically pursue improvements in the interest of residents of the Village.

The public comment period will be open for 14 days or until May 14th. Please contact the Village Offices at:
